DISABILITY RESOURCES FOR STUDENTS

Accommodations
Inclusion
Access
ABOUT US

DRS is dedicated to ensuring access and inclusion for all students with disabilities on the Seattle campus enrolled in our undergraduate, graduate, professional, Evening Degree, and Access programs.

DRS serves 4,800+ students with either temporary or permanent physical, health, learning, sensory or psychological disabilities. We partner with students and faculty jointly in the process to establish accommodations, services and access to academic programs.

WHAT WE DO

- Partner with students with disabilities to establish services for their access and inclusion on campus

- Manage, coordinate, implement and evaluate accommodation/service programs

- Serve as a resource to students/faculty/staff to ensure effective provision of services

- Provide educational and resource support to the campus community to increase awareness regarding how to create and sustain access and inclusion for students with disabilities in all aspects of the university

- Provide resource and referral information to the campus community and prospective students and their families
Student Parent Resources

The Childcare Assistance Program (formerly known as Student Parent Resource Center) is a place where students can connect with other student parents and find a sense of community on the UW campus. We understand the special challenges and struggles that student parents encounter when balancing their studies and parenthood. It is a family-friendly place for student parents to find the campus and community resources they need as they face the competing challenges of both the student and family life.

Visit the Childcare Assistance Program online at:

or in person at:

1410 NE Campus Parkway - Schmitz Hall Rm 105

Faculty and graduate students in the Consulting Program of the Departments of Biostatistics and Statistics offer free statistical advice to University of Washington faculty, staff, and students through scheduled 50 minute consulting appointments during academic quarters when class is in session. They provide assistance with:

- the design of studies and experiments, including the preparation of grant proposals
- data visualization and presentation
- choice and application of statistical methods
- development of specialized statistical methods in some cases

The consultants have experience primarily with the R and Stata statistical analysis systems, but they work with clients using whatever statistical package is most convenient for them. (Note: Statistical consulting is for study design and data analysis advice, not software tutorials.)

To schedule an appointment, contact the Dept. of Biostatistics or the Dept. of Statistics (see below). Researchers may schedule an appointment in either department. The schedule of appointments for the current academic quarter may be seen in the U.W. Statistical Consulting Calendar. You may request an appointment by phone or email (contact information below), or by submitting the Problem Description Form required for all new appointments.

Extensive hands-on assistance with data analysis is not generally available without funding, although staff can often provide direct assistance with "small" data analysis projects. Fee-based collaborative consulting, including data analysis and written reports is available through our Center for Statistical Consulting. Certain larger projects can sometimes be addressed as independent study projects for select graduate students. University researchers with a need for assistance with substantial data analysis are welcome to contact Paul Sampson (pds@stat.washington.edu) directly with details of their scientific problem. Fee-based consulting on major projects is also provided by the Center for Biomedical Statistics in the UW Institute of Translational Health Sciences.
Statistics Tutor & Study Center

The Statistics Tutor and Study Center is in the Communications Building B-023. We are dedicated to furthering undergraduate statistical education at UW. Free drop-in tutoring is offered for all students enrolled in UW introductory statistics courses (any campus) and many faculty and TAs hold office hours in the Center as well. Hours between 10 AM and 5 PM are in B-023 or over Zoom. Tutoring between 7-8 PM is via Zoom only. You can join Zoom sessions via this link.

We support students in all introductory statistics courses including:

- **STAT** 220, 221, 311, 340, 390, 391
- **QMETH** 201
- **EDPSYCH** 490
- **PSYCH** 315, 317, 318
- **SOC/CS&SS** 221
- **INDENG** 315
- **QSCI** 381
- **And more**

Answers to higher-level course questions are not guaranteed.

- **Faculty Director:** Tamre Cardoso tamre@uw.edu
- **Student Lead Tutor:** Jerry Wei zwei5@uw.edu

Drop-In Tutor Schedule (Subject to Change). Hours between 10 AM and 5 PM are in-person only in Communications Building B-023. Tutoring between 7-8 PM is via Zoom only. Please sign into your UW Zoom in order to join the online Zoom session.
The STF Technology Loan Program

“A program for students, run by students, that allows students to borrow technology for free.”

About the Program
The STF (Student Technology Fee) Technology Loan Program is a student-run subsidiary of Classroom Technologies and Events which aims to provide students with various forms of technology they may not otherwise have the opportunity to utilize. There is no cost associated with renting any equipment, as all funds are provided by the student technology fee. The staff strive to provide flexible renting options and work with the students to meet their technological needs. In sum, STF seeks to enhance UW student’s learning experience by enabling them to become fluent in media usage, allowing them to generate more creative content and projects, while better preparing them to be attractive candidates in the workforce after graduation.

Tech Loan Program Extension
The HUB is home to an extension of the Tech Loan Program which is operated by UW-IT Classroom Technology & Events. The Tech Loan Program is funded by the Student Technology Fee and the Services and Activities Fee Committees.
The Tech Loan Program @ the HUB can be found in HUB 111-D, within the Student Org Resource Center, and has limited operating hours.

Available Equipment
- PC Laptops
- DSLR cameras & tripods
- Camcorders
- Projectors & projector screens
- Video and audio recording devices
- Apple iPad Air 2
- Apple Macbook Pro 2015
- Portable Speakers
- Wireless Microphone System

Tech Loan Program Locations:
Kane 035 | 206-685-6090
HSB I-146 | 206-543-3465
HUB 111D | NOTE: They have no phone number in HUB 111D
